Commissioners Wing
1200 W. Washington - 2nd Floor
Phoenix, Arizona 85007

Dear Mr. Little:

As an APS ratepayer and Sun City Resident, I strongly object to the APS recommendation for Mandatory Demand Charges.

With this mandatory demand charge, it could produce radically different charges every month. All of a sudden we would have spiked our kilowatt usage way up from what it normally is for a short period of time, but yet we are going to get stuck with a larger bill for that. I don't think that's right.

Residential demand charges are currently available as a choice. That is exactly where they belong.

Please vote against Mandatory Demand Charges.

Respectfully submitted,

Carol A. Gurel

E-01345A-16-0123

Commissioners,

Having read the documents, as posted in the E-Docket of your website, for the last few months, it is apparent that the people in APS's territory are 100% against this latest rate ripoff that is being perpetrated on its customers. I have not read one comment in favor of this rate case.

Should the Commission approve any part of this new rate case, it will only prove to all of us that the entire "Dark Money" controversy was not a controversy, it was fact. Certain members of the commission are bought and paid for by APS and Pinnacle West.

Further indication of this is the Commissioner Burns debacle. A Commissioner trying to get to the bottom of the "dark money" issue is being thwarted by certain other members of the Commission. Sounds like a collusion between APS and those certain bought off Commissioners to most of us out here.

Timothy M. Lyon

Capt. USAF Ret.

All of a sudden we would have spiked our kilowatt usage way up from what it normally is for a short period of time, but yet we are going to get stuck with a larger bill for that. I don't think that's right.

Residential demand charges are currently available as a choice. That is exactly where they belong.

Please vote against Mandatory Demand Charges.

Respectfully submitted,

Dear Mr. Little:

As an APS ratepayer and Sun City Resident, I strongly object to the APS recommendation for Mandatory Demand Charges.

With this mandatory demand charge, it could produce radically different charges every month. All of a sudden we would have spiked our kilowatt usage way up from what it normally is for a short period of time, but yet we are going to get stuck with a larger bill for that. I don't think that's right.

Residential demand charges are currently available as a choice. That is exactly where they belong.

Please vote against Mandatory Demand Charges.
